Data Engineering - Cívica

2026 · Certification

Higher Technician Diploma in Web Application Development (DAW)

Atlántida CIDEP · 2021-2025 · 8,08/10

Higher Technician Diploma in Multiplatform Application Development (DAM)

Atlántida CIDEP · 2021-2024 · 7,69/10

Intermediate Technician Diploma in Microcomputer Systems and Networks

I.E.S. Aricel · 2019-2021 · 6,30/10

CERTIFICATIONS

- Data Engineering - Cívica (2026)
- dbt Fundamentals - dbt Labs (2026)
- Creating Chat with Kotlin and Firebase in Android Studio - Udemy (2024)

LANGUAGES

Spanish: Native

English: B2 - professional experience in Ireland

EXPERIENCE

Training Project — Data Engineering | Cívica

03/2026 - 05/2026 · Granada

- Built an end-to-end pipeline using 67,000+ Steam games with a Medallion architecture in Snowflake.
- Implemented incremental models, SCD-2 snapshots, macros and testing in dbt Cloud; prepared 4 Power BI dashboards.

Junior Web Developer | Wit Creativo

03/2025 - 06/2025 · Granada

- Developed and maintained WordPress/Elementor websites for real agency clients, adapting functionality to their needs.
- Integrated JetEngine and WooCommerce and worked on content and technical adjustments for production projects.

Junior Full Stack Developer | OYR Solutions

03/2024 - 06/2024 · La Zubia

- Developed full stack web applications with JavaScript on the frontend and PHP/MySQL on the backend.
- Created an accounting management module for Dolibarr and contributed to UX improvements based on real user feedback.

IT Support / Graphic Design | Love2Learn / Property

Partners Nationwide

06/2022 - 08/2022 · Waterford, Irlanda

- Provided technical support and account management in English within a multicultural environment.

IT Technician | TECNOSECOND SL

03/2022 - 06/2022 · Maracena

- Performed system formatting, disk cloning, component replacement and software installation.

FEATURED PROJECTS

Steam Games - Data Engineering Pipeline [dbt](#) · [Snowflake](#) · [Power BI](#) · [Python](#)

End-to-end pipeline that transforms Steam data into analytical models and dashboards using a Medallion architecture, incremental models, SCD-2 and testing.

MNZone - Gaming Center Management Platform [PHP](#) · [JavaScript](#) · [MySQL](#) · [Python](#)

Full stack platform with authentication, bookings, store, member management and an administration panel; DAW final project.

MaxManga - Android Applications [Kotlin](#) · [Android](#) · [Firebase](#)

Two applications developed as a DAM final project: PDF reading and management, and a community application with real-time chat.

PROFESSIONAL SUMMARY

I combine application development, database work and a recent specialization in Data Engineering. My portfolio and GitHub include documentation and screenshots of my main projects.
